

Skiing Trip to Alpe D'Huez

It was a large and enthusiastic group of skiers and snowboarders of all ages who enjoyed the powder snow on this year's trip to Alpe D'Huez in France. According to organiser Mrs Hall-Palmer, "There was a huge improvement in the standard of skiing and snowboarding from everyone throughout the week. While our intermediate boarders had a sensational time jumping and learning tricks in the snowpark, gaining confidence with speed and technique, the beginners ended the week able to do red runs which is an amazing effort.

"Our skiers were probably the best overall group we have ever had on a trip and the majority of advanced and intermediate skiers completed the famous Sarenne run - 6km in length from Pic Blanc to the village - on a glorious day in bright sunshine. The beginner skiers achieved an excellent standard of linked parallel turns after 6 days and did several red runs, jumps and were adventurous in the deep snow."

There is a ski trip each December, alternating between a North American and European destination.

WORTH SCHOOL

It's not just the Senior students who enjoy the slopes

Worth staff as you don't normally see them.
